NOTICE.

Parties ordering will please not write their orders in the body of the letter, but write them each separate and distinct, each article on a separate line. This will save time, and prevent errors.

Orders from unknown correspondents, unless accompanied by a remittance, will be sent by express, C. O. D.

Explicit directions for marking and shipping should accompany each order.

Parties ordering will please write their names and directions plainly.

Our patrons will oblige us by notifying us, on receipt of their plants, of any error or omission, that it may be at once corrected.

No charge will be made for boxes, baskets, or packing, on bills of five dollars and upwards, and all packages will be delivered in New York free of expense.

When selections of plants are left to us, care will be taken to send the best varieties, and good plants.

Our plants have all been grown with great care, and are strong, healthy plants.

Particular attention is paid to packing.

To Nurserymen, Florists, and the Trade.

In making our prices in this catalogue, particular attention has been paid to Nurserymen, Florists, and the trade generally, as will be seen by the unusual low price at which most of the plants are offered by the dozen and by the hundred, especially during the month of February, for plants grown in two or three inch pots. In packing they are removed from the pots, which is not only a saving of half the cost in expressage to the buyer, but plants thus packed always carry safer than when packed in pots. When received, they should be potted in pots a size larger than they have been grown in, which will make them fine plants to sell, or to plant out in open ground in April and May.

The following are some of the varieties grown in two or three inch pots, which we offer at unusual low prices, by the quantity, during February, as stated above:

Achyranthus.
Alternantheras.
Bouvardias.
Carnations.
Coleuses.
Fuchsias.
Geraniums.
Heliotropes.
Lysimachia Nummularia (Moneywort.)
Verbenas, &c., &c., &c.

Not less than *six* plants sold at the price per dozen, and not less than *twenty-five* sold at the price per hundred.

CATALOGUE

OF

New, Rare and Beautiful Plants,

FOR 1872.

Bouvardia Vreelandii.—(*See Cut.*)

This is a new production, which originated with me, from the B. Hogarth. Like its parent, it is a free grower and profuse bloomer, bearing large trusses of *pure white flowers*, and can be readily propagated from either root or top cuttings. This has proved itself to be a very valuable acquisition, and ranks at the *head* of our *White Winter-Blooming Plants*, either for floral work or as an ornamental plant for the parlor, observatory, green-house, or flower-garden.

Price, large plants, 75 cents each; $6 per dozen. Small plants in two-inch pots, 20 cents each; $1.50 per dozen. In two-inch pots to the trade during February, March, April and May, $8 per hundred.

Abutilon Santana.

As a plant for the decoration of the green-house or conservatory it cannot be surpassed, blooming from October to May; flowers of large size, of dark, brownish crimson; distinct and beautiful; darkest sort in cultivation.

Price, from 25 cents to 50 cents each, according to size of plant; $2.50 per dozen.

Abutilon Thompsonii.

A most beautiful foliage plant, the ground color of the leaf being bright green, blotched and spotted with yellow.

Price, from 25 to 50 cents each, according to size of plant; $2.50 per dozen.

BOUVARDIA VREELANDII.—Pure white.

Achyranthus Aureus Reticulatis.

This is a sport from Verschaffeltii, which it resembles, except in its beautiful leaf-markings; instead of being rich crimson, is light green, marked with yellow; part of the leaf will retain the crimson shade of its origin. The stems, which are purplish crimson, form a marked contrast to the prevailing golden shade of the leaves. As a plant for the hanging basket, or a parlor plant, it is very desirable.

Price, 25 cents each; $2 per dozen. Grown in two-inch pots, to the trade during February, $8 per hundred.

Achyranthus Gilsonii.

As a bedding plant, to use with light foliage, is much better than the Coleus, on account of its hardiness; leaves dark pink; stems crimson.

Price, 25 cents each; $2 per dozen. Grown in two-inch pots, to the trade during February, $8 per hundred.

Achyranthus Lindenii.

This new and beautiful variety is thus described in English catalogues: "A perennial species, from the Equatorial Andes, where it was found at an altitude of 9,000 feet above sea level. In habit it is dwarfed and completely branched, with narrow, elliptic, lanceolate leaves, of a deep blood-red color, reflecting varying tints of red and purple, and displaying its most attractive features during the later Summer months."

Price, 25 cents each; $2 per dozen. Grown in two-inch pots, to the trade during February, $8 per hundred.

Ageratum Mexicanum.

Price, 20 cts. each; $2 per doz.
